

Hi,

I work as Tech and Media Specialist for ASDB (Arizona School for the Deaf and Blind) I use VRS almost everyday to commcate with my staff's celluar. I call different companies to discuss on tech problem issues. Its very useful and helpful to understand how to resolve with tech problem. Do not think about VRS is wothless. That is not true. Those VRS are useful and help with our deaf community. I beg you not to shut down. Thank you for your time with me.
